$\hat{Y} = \hat{\beta}_0 + \hat{\beta}_1 X = 102.84 - 1.45X$
$\hat{\beta}_0 = 102.84$: the line's value at X = 0, far left of the data
slope $\hat{\beta}_1 = -1.45$
−7.3
+5
Y: Trump % of two-party vote, 2024
X: % of adults 25+ with a bachelor's degree, 2019–23
